

# Delta Green: Tales from Failed Anatomies

By Dennis Detwiller

*desperate intrigue meets cosmic terror*

Cthulhu Mythos stories in the award-winning world of DELTA GREEN

*Delta Green: Tales from Failed Anatomies* features short stories of cosmic terror and desperate intrigue—stories of Delta Green.

The men and women of Delta Green have seen the awful truths of reality and struggle to keep those realities at bay as long as they can. Delta Green agents bring the best (and worst) of human resources and intentions to bear against impossible horrors—cosmic terrors against which humanity itself is insignificant.

These stories span the history of Delta Green, from the aftermath of the raid on Innsmouth to a possible future when Delta Green's long secrecy has shattered—when humankind has pieced together the dissociated knowledge that Delta Green long fought to conceal, and has begun to go mad from the revelation of terrifying vistas of reality.
